

MEMBER SUCCESS COMMITTEE

Welcoming. Inclusive. Supportive.

Above are three adjectives that describe our professional organization, the Michigan Municipal Executives. The Member Success Committee, under the leadership of Ludington City Manager Mitch Foster, aims to put substance behind these words in 2021 and beyond. We will welcome you, include you and support you as you succeed in your journey as a local government manager in the great State of Michigan.

MME

New managers are welcomed by one or more managers and are invited to participate in local and statewide MME events, functions and continuing educational opportunities. Whether they move here from another state, are promoted from within an organization or join our profession from another discipline, we are committed to making sure you are immediately connected to our vast network of over 300 local government professionals.

As the months and years roll by, you will be included in our regional groups, our association mailings and announcements of professional development opportunities. Your colleagues will reach out as often as possible, and you are asked to reciprocate. This big family needs to connect with intention and good will on a regular basis.

Fellow managers know what you are dealing with. We love to hear about each other's successes and listen thoughtfully to much-needed venting after an awful board meeting. Whatever and whenever, we are here to support one another. Our support system is rooted in trust and mutual respect, and you are supported by hundreds each day.

This ongoing effort replaces previous coaching and mentoring programs. We can put members in touch with mentors or coaches as needed, however the MME Member Success Committee is more than that.
