

# Annual Sponsorship Opportunities

2025-2026

Michigan  
Municipal  
Executives

A State Affiliate of ICMA

# About Us

Strengthening the Quality of Local Governance through Professional Management.

## Mission Statement

MME works to provide members' professional development, support their personal growth, and promote the municipal executive profession in Michigan. In service to its members and their communities, MME seeks to enhance management excellence, continuous improvement, and high ethical standards.

Michigan Municipal Executives (MME) is the primary professional organization in Michigan for local government managers and administrators and their leadership teams. The purpose of MME is to foster and encourage the personal and professional development of its members in order that they may better serve their communities and to promote, encourage, and preserve high ethical standards for municipal administrators.

Committees - There are 7 overarching committees made up of MME members, with a chair and vice-chair. These committees meet throughout the year to discuss, plan, and offer recommendations to the Board of Directors on a variety of issues and potential actions.

Board of Directors -The MME Board of Directors is made up of sixteen members including the President, President Elect, Vice President, Immediate Past President, and twelve Directors. They are elected by the voting members of MME and take office at the Annual Membership Meeting during the Winter Institute each year. The Board of Directors also includes a non-voting Secretary/Treasurer and non-voting ex-officio members from the International City/County Management Association (ICMA).

It is important to evaluate and meet the professional development needs of MME members through effective and pertinent programming and assistance.

Winter Institute and Summer Workshop provide opportunities for personal and professional development, networking, connecting with companies and firms providing much needed services to local governments, and importantly knowledge sharing.

These events often include keynote speakers, mobile workshops and tours, dinners, receptions, and featured panels and breakout sessions featuring best practices and new ideas in public service.
