Mission Statement

MME works to provide members' professional development, support their personal growth, and promote the municipal executive profession in Michigan. In service to its members and their communities, MME seeks to enhance management excellence, continuous improvement, and high ethical standards.

About Us

Michigan Municipal Executives (MME) is the primary professional organization in Michigan for local government managers and administrators and their leadership teams. The purpose of MME is to foster and encourage the personal and professional development of its members in order that they may better serve their communities and to promote, encourage, and preserve high ethical standards for municipal administrators.

Board & Committees – Our Board of Directors is made up of 16 members. Directors are selected for three-year terms, with four Directors elected each year at the Annual Membership meeting. There are 5 overarching committees made up of MME members, with a chair and vice-chair. These committees meet throughout the year to discuss, plan, and offer recommendations to the Board of Directors on a variety of issues and potential actions.

Board of Directors – The Board of Directors is made up of 15 corporate members including, the President, President-Elect, the immediate Past President, and 12 directors elected by the MME membership at its annual business meeting at the Winter Institute. The directors are elected for 3-year terms, four in the even years, and four in the odd years. All officers and directors shall be voting members of the Association, except the secretary-treasurer. The ICMA Midwest Vice President designated as the State Liaison Officer and the State Liaison Officer from the ICMA are designated as ex-officio non voting members of the Board of Directors.

It is important to evaluate and meet the professional development needs of MME members through effective and pertinent programming and assistance.

Winter Institute and Summer Workshop provide opportunities for personal and professional development, networking, connecting with companies and firms providing much needed services to local governments, and importantly knowledge sharing.

These events often include keynote speakers, mobile workshops and tours, dinners, receptions, and featured panels and breakout sessions featuring best practices and new ideas in public service.
